

**RFP Requirements Crosswalk - EagleShroud Tech Systems Modernization Project - Time & Materials (T&M)
Contract with Base and Option Year**

The following matrix provides a cross-reference between the RFP requirements and the offeror's submitted pricing documentation. It demonstrates compliance, traceability, and alignment of proposed labor, pricing structure, and assumptions with the solicitation's terms and evaluation criteria.

RFP Section	Requirements Summary	Response / Compliance	Document or Tab
Section B - Supplies or Services and Prices	Provide CLIN-Level pricing with labor and ODCs separated	Compliant - CLIN pricing table includes labor categories, ODCs, and fees for both base and option years	CLIN Pricing Tab
Section C - Statement of Work	Includes labor resources that align with tasks in the SOW	Compliant - Labor categories and estimated hours justified in BOE and mapped to CLINs	BOE Tab + BOE Narrative (Word)
Section L - Instructions, Conditions, and Notices to Offerors	Submit a complete pricing volume with all assumptions, rationale, and cost backup	Compliant - Pricing Volume submitted with cost model, assumptions, and justification	Pricing Volume Narrative (Word)
Section M - Evaluation Criteria	Cost will be evaluated for realism and completeness	Compliant - Rates and hours are justified based on market data and past performance	BOE Tab + Inputs Tab
Section B - Option Periods	Include pricing for base and one option year	Compliant - Pricing workbook includes both base and option year details for all CLINs	Labor Pricing, ODCs, CLIN Pricing Tabs
Section G - Deliverables	Provide supporting documentation for proposed cost elements	Compliant - Full traceability between RFT, cost elements, and supporting documents provided	Pricing Model Workbook + BOE Narrative + RFP Matrix
